- Git
- Agile Workflow

WORK EXPERIENCE

Senior Full-Stack Developer | Codesy Consulting

Nov 2023 - Present

- Developed the front-end of a web application for patients using React, which allows them to securely log in and access their medical records.
- Built RESTful APIs using Nest.js framework for the backend to fetch, update and store patient health data.

- Developed responsive UI/UX using React Material UI library to provide optimized patient experience across devices.
- Leveraged React Query for efficient data fetching between frontend and backend services to improve performance.
- Implemented data validation, error handling and security best practices to ensure patient data integrity and privacy.
- Leveraged React Redux for centralized state management.
- Adopted agile methodologies for effective project management and on-time delivery.

Staff Software Engineer | Lucid Lane

Feb 2022 - Sep 2023 (1 year 8 months)

- Led and managed the mobile app development team in the creation of the LUCIE mobile app.
- Oversaw the entire development lifecycle from conception to deployment, ensuring project milestones were met.
- Actively contributed to the development of the LUCIE mobile app using React Native, leveraging hands-on coding and technical expertise.
- Collaborated with the development team to implement best practices, code reviews, and ensure a high-quality codebase.
- Facilitated regular meetings with the product team to gather and refine requirements, aligning development efforts with business goals.
- Worked closely with the design team to integrate design concepts and maintain a consistent and visually appealing user interface.
- Built and maintained web applications using Vue.js, ensuring optimal performance and user experience.
- Mentored junior front-end developers, fostering a collaborative and productive team environment.
- Received recognition for consistently delivering projects on time and exceeding expectations.

Shopify / React Developer | Wesrom Corporation

May 2021 - Feb 2022 (10 months)

- Developed LeadShark, a React.js web application from scratch, empowering marketing and sales professionals with access to millions of verified leads in their target market.
- Built a scalable and user-friendly application, ensuring high performance and an exceptional user experience.
- Improved lead generation processes by implementing advanced search and filtering functionality.
- Collaborated with a cross-functional team of designers, developers, and product managers to deliver a market-leading product.

Front-End Developer | Upwork

Nov 2020 - Apr 2021 (6 months)

- Successfully completed multiple Shopify-related projects as a freelancer on Upwork, consistently receiving 5-star reviews from clients.
- Achieved Top Rated status on Upwork, representing the top 10% of talent in the platform.
- Demonstrated expertise in delivering high-quality work and meeting client requirements, resulting in positive feedback and repeat business.
- Built a strong reputation as a reliable and professional freelancer on Upwork, contributing to successful project outcomes and customer satisfaction.
- Gained extensive experience in the Shopify platform and its related technologies, continuously expanding knowledge and skills to provide value to clients.

Shopify Team Lead | Aiva Labs

May 2020 - Oct 2020 (6 months)

- Managed multiple concurrent multi-faceted projects and effectively addressed any issues that arose.
- Utilized tools such as JIRA, Wrike, Trello, and Excel to track and monitor project progress.
- Provided guidance and support to team members on assigned tasks.
- Made informed decisions to accommodate changes in project requirements.
- Delivered projects with a focus on quality and timely completion.
- Compiled and submitted regular project updates to management.
- Worked closely with various business units to align project commitments.
- Contributed to a challenging development process as part of a diverse, multinational team of professionals.

Senior Front-End Developer | Cosmos

Jan 2018 - Mar 2020 (2 years 3 months)

- Production, modification, and maintenance of Shopify powered e-commerce website.
- Modified and customized existing Shopify themes using API and Liquid template language.
- Implemented automation of routine tasks using Headless Chrome Node API.
- Built custom Chrome extensions to streamline repetitive tasks and improve workflow efficiency.

Front-End Developer | BitsWits

Mar 2016 - Dec 2017 (1 year 10 months)

- Designed and implemented data manipulation solutions using JSON, AJAX and Python (Django) for backend development.
- Collaborated with the development team to ensure seamless integration of server-generated data into front-end.
- Wrote efficient and optimized JavaScript and jQuery code to minimize page load time.
- Proactively addressed technical challenges before and after backend development.
- Utilized Gulp.js to automate development processes and streamline workflow.
- Managed code and tracked changes by using Mercurial.

UI Developer | Traffic Digital

Jun 2015 - Feb 2016 (9 months)

- Facilitated effective collaboration between front-end team and cross-functional departments.
- Provided technical guidance to development team to resolve complex problems and improve workflow.
- Designed user-centered interfaces with cross-device compatibility.
- Implemented Grunt.js to streamline development processes and improve efficiency.
- Utilized Git for version control management, ensuring seamless collaboration and tracking of changes.

Web Developer | Bullseye DDB

Mar 2014 - Jun 2015 (1 year 4 months)

- Designed and developed custom WordPress websites to meet client requirements.
- Developed Facebook applications to support digital marketing campaigns.
- Built responsive websites for various brands, ensuring optimal user experience across devices.

HTML Developer | Symmetry Group

Aug 2011 - Feb 2014 (2 years 7 months)

- Designed and developed the front-end of multiple websites.
- Built front-end interfaces for various Facebook applications.
- Expertly converted design files into optimized HTML code.

CERTIFICATIONS

- Back End Development and APIs from freeCodeCamp, 2023
- Theme Development from Shopify Partners, 2021
- Web Page Development from Vision IT, 2011

EDUCATION

Bachelor of Science in Business
Administration from Virtual University of
Pakistan, 2016
